

Reception Weekly Overview

Week Beginning: 28.01.19

Last week:

We learned all about number bonds to 10! We learnt how to choose two numbers which add together to make 10. We also discovered the different resources we can use to work out our answers, some children even challenged themselves to work out number bonds to 20, fantastic learning!

Reminders: Sign up for our phonics workshop on Thursday 7th February, sign up sheet is in the office.

Please remember to dress your child in warm clothes for our trip to the golden hinde on Thursday, make sure they bring an empty back pack to carry their lunch in.

Lots of children have not brought in their spare clothes, please make sure your child has spare clothes to keep in school.

Our pirate banquet is fast approaching, we would love for the children to dress up as a pirate for the day. There will also be a prize for the best dressed parent!

Friendship

Red words to learn

said the you

Our value this half term will be:

Innovation

What is innovation?

How can you be innovative with your learning?

English

In English this week we will be learning how to be a pirate! We will be listing all the things we might need in preparation for our trip on Thursday. We will also be writing a response to Blackbeard the Pirate, who has lost his treasure and needs some pirate friends to help him.

This week in ICT we will use the iPads to consolidate our numbers by playing some number games and practicing our formation

Our topic this half-term is:
Under the Sea

Topic

We will be making pirate ships! In our outdoor area we will use the construction site to make a pirate ship fit for all EYFS pirates! We will be making pirate ships from our recycling too! We will also test which materials can float. We will concentrate on making a good plan before we start to build and then reflecting on what we could change and improve to make our pirate ships even better.

Maths

We will be learning about money! We will be making a pirate shop where we will sell and buy telescopes and eye patches. We will be learning to recognise the coins and use them in our role play area. You could help at home by talking about the different coins you use when you go to the shop.

Money, buy, sell, pirates, construct, recycling, material, friendship
