

MATHS

The children will consolidate their understanding of the Year 6 curriculum and also cover ratio and statistics.

They will cover the follow objectives:

Ratio

- Using ratio language
- Ratio and fractions
- Introducing the ratio symbol
- Calculating ratio
- Using scale factors
- Calculating scale factors
- Ratio and proportion problems

Statistics

- Read, interpret and draw line graphs
- Use line graphs to solve problems
- Read and interpret and draw pie charts
- Understand how to calculate the mean

HISTORY

Our focus of learning will be the Windrush Generation this term. We will look at the journey that people made to Great Britain from the Caribbean, making links in our wider knowledge about the historic ties people had to Britain from Empire and through the Common Wealth.

We will examine some of the reasons people had to come to Britain including why many were actively invited by the British government to migrate help meet the labour shortage after WW2. This will be juxtaposed and contrasted against the reception and treatment the Windrush Generation experienced upon their arrival and subsequently (even to present day).

Our learning will conclude with a reflection of the impact the Windrush Generation has had on British culture and society including the positive developments in equality and diversity.

ENGLISH

Kensuke's Kingdom – Michael Morpurgo

Washed up on an island in the Pacific, Michael struggles to survive on his own. With no food or water, he curls up to die. When he wakes, there is a plate beside him of fish, of fruit and a bowl of water. He is not alone...

As we approach the end of key stage assessments, our focus will be on the children's independent writing. From our core text, we will derive a number of different writing purposes and genres, but this half term the children will be

strongly encouraged to develop their own writer's voice. Part of that process will be the explicit teaching of editing strategies and the reflective appraisal of their own and other's writing.

Coming to England – Floella Benjamin

A story about the triumph of hope, love, and determination, *Coming to England* is the inspiring true story of Baroness Floella Benjamin: from Trinidad, to London as part of the Windrush generation, to the House of Lords.

PSHE

Relationships

The children will learn about mental health and develop strategies to look after themselves and someone else if they experience mental health problems. Children will learn there are different stages to grieve and that there are different types of loss that cause people to grieve. Furthermore children will learn how to be safe online and use technology positively to communicate with friends and family.
