

# Y1

# POTTY ABOUT PLANTS!

# SPRING 2

MATHS		GEOGRAPHY		
<p>During this half term the children will focus on;</p> <ul style="list-style-type: none"> <li>Familiarising themselves with larger numbers to 100; we will use our number bonds and knowledge of place value to look carefully at the value of each digit in a number</li> <li>Recognising coins and notes and begin to add and subtract using money</li> <li>Applying addition and subtraction methods independently to find answers to equations with two-digit and single-digit numbers</li> </ul>		<p>During this half term the children will focus on;</p> <ul style="list-style-type: none"> <li>Naming and identifying the four countries within the UK and their capital cities</li> <li>Identifying key physical features of the UK such as; cliffs, seas, mountains, forests, marshes etc...</li> <li>Identifying key famous landmarks within the UK</li> </ul>		
ENGLISH	PSHCE	D&T	R.E	
<p><b>Text 1: Jack and the Beanstalk</b> This half term the children will learn how to use adjectives to write a character description whilst comparing their chosen character with others from the story and explaining their similarities and differences. Children will then be exploring comic strips. We will innovate the story into a comic strip with illustrations and captions.</p> <p><b>Text 2: Avocado Baby by John Burningham</b> The children will begin the story by discussing memories when they were a baby and continue to write a poem about their favourite food. We will conclude the book by writing a non-chronological report about 'healthy eating'.</p>	<p><b>Healthy Me</b> We will be looking at the importance of keeping healthy. We will discuss how we can make healthy lifestyle choices.</p>	<p><b>Fruits &amp; Vegetables</b> We will be looking at the difference between fruits and vegetables, how and where they grow and what they taste like. The children will learn how to prepare them and design their own delicious smoothies.</p>	<p><b>What does it mean to belong to a faith community?</b> We will be looking at how different religions show they belong to a wider religious community. We will also be looking at how religions welcome new babies to their communities.</p>	
SCIENCE	P.E			
<p><b>Plants</b> During this half term the children will learn about the difference between deciduous and evergreen trees. They will learn to identify and name common flowering plants and trees endemic to the UK and will carry out simple experiments to find out what a plant needs to survive and thrive. We will begin this unit on plants with an exciting trip to Hampstead Heath.</p>	<p><b>Striking and fielding</b> (Outdoor P.E)</p> <p><b>Fitness</b> (Indoor P.E)</p>			
COMPUTING	MUSIC			
<p><b>Data</b> During this half term the children will learn about different types of data and how we can collect and input data in a variety of different ways. They will have the opportunity to collect their own data linking with our science experiment on plants and will use the iPads to chart and document their findings.</p>	<p><b>Round &amp; Round – Bossa Nova</b> Students will explore the lively and up tempo beats of this style.</p>
