

# Year 3 – Spring 2

SPRING 2

<b>MATHS</b>		<b>GEOGRAPHY</b>	
<p style="text-align: center;"><b>Time and fractions.</b></p> <p>Children will develop their ability to read an analogue clock and a digital clock. They will understand am and pm and measure time intervals. Children will solve problems using time.</p> <p>Children will learn how to find fractions of shapes and fractions of an amount. They will compare fractions, find equivalent fractions and add and subtract fractions.</p>		<p style="text-align: center;"><b>Gateway to the World: Focus on European geography and The Alps</b></p> <p>Children will develop their map work skills and locate the Alps on a world map. They will learn about the physical features of the Alps and how mountains are made. They will be taught about the climate of the Alps. Children will develop an understanding of tourism in the Alps</p>	
<b>ENGLISH</b>		<b>PSHCE</b>	<b>D&amp;T</b>
<p><b>Leon and the Place Between by Angela McAllister ( Fantasy Story)</b> Children will examine the story and will write their own fantasy from the rabbit’s point of view.</p> <p><b>Tom’s Sausage Lion by Michael Morpurgo</b> Children will write a piece of persuasive writing, responding to the question ‘Should animals be kept in a zoo?’</p> <p><b>Where Zebras Go : Sue Hardy-Dawson</b> Children will examine the features of poetry, with a focus on similes and metaphors and will write their own.</p>		<p style="text-align: center;"><b>Healthy Me</b></p> <p>Children will learn how to make healthy choices, for example how to eat a balanced diet. They will learn how to be safe and how to identify when something feels safe or unsafe. They will develop their understanding of how to take care of themselves.</p>	<p style="text-align: center;"><b>Eating Seasonally</b></p> <p>Children discover when and where fruits and vegetables are grown and also learn about seasonality in the UK. They will also learn about the relationship between the colour of fruits and vegetables. Children will design and make a seasonal tart.</p>
<b>SCIENCE</b>		<b>P.E</b>	
<p style="text-align: center;"><b>Plants</b></p> <p>Children will learn how to classify and observe plants. They will develop their scientific skills by using scientific evidence to answer questions. They will carry out an investigation to find out what plants need to grow well and use their results to draw conclusions and raise further questions. Children will investigate and observe over time the way in which water is transported within plants by observing the transport of food colouring through a flower stem. They will research and investigate the different parts of a flower and explain their role in pollination and fertilisation.</p>		<p style="text-align: center;"><b>Hockey (Outdoor P.E)</b></p> <p style="text-align: center;"><b>Handball (Indoor P.E)</b></p>	
<b>COMPUTING</b>		<b>MUSIC</b>	
		<b>R.E</b>	
		<p style="text-align: center;"><b>Why do some people think that life is a journey?</b></p> <p>Children will discuss what a journey means to them. They will learn about the significance of Baptism to Christians and how Jewish people mark becoming an adult. They will learn about the ceremonies the Hindus mark in the journey of life and why people choose to get married. They will compare the journeys of Christians, Jewish people and Hindus.</p>	

**Computer Systems and Emailing**

**This half term children will learn how to send an email and** add an attachment.  
They will understand how to be safe online and how to recognize a fake email.
